

### Display Maintenance Service Package Fee Schedule

Because of harsh operating environments, DSE recommends a Display Maintenance Service on units three (3) years and older. The fee schedule is based on the product's options, and is discounted when combined with other Service Center repairs on the same unit. *In the event any finding is discovered during the maintenance service process, additional parts and labor will be quoted.*

**Inbound and Outbound Freight** are the Customer's responsibility.

#### Configuration Pricing

- W/O Heaters or Touch    \$30
